# YELLOWSTONE BEARS INJURE 100 ANNUALLY

Between 90 and 110 visitors to the Yellowstone National park are injured every year by the "tame" bears of the park, Dr. C. Max Bauer, geologist of the National Park Service, Washington, D. C., declared Sunday night in an illustrated talk on Yellowstone at the third of the Park Service's summer campfire programs on East Cemetery hill. Dr. Bauer was naturalist at the Yellowstone National park for 15 years.

The conduct of the bears is unpredictable, particularly the black bears, Dr. Bauer said. They will accept, even beg food from tourists, only to bite or scratch him when the tourist's back is turned as he returns to his car. The park contains a wide variety of wild life, including deer, elk, moose and bison, the speaker said. They thrive best in their native habitat and under natural conditions, and seldom and sometimes die if attempts are made to feed them.

**Shows Colored Slides**

Dr. Bauer said that the park has over 300 trumpeter swans, which were almost extinct a few years ago, as well as many other species of birds.

The slides shown by Dr. Bauer included colored pictures of the hot springs, geysers, wild life, falls of the Yellowstone river and the flowers common to the park, which he said is roughly about 50 miles by 65 miles in area.

Dr. Bauer was introduced by Dr. Frederick Tilberg, historian of the Gettysburg National park. More than 200 persons attended the campfire program.

Barron organized his orchestra while attending Ohio university as a reaction against the blaring "jazz" bands, and adopted a program of "soft and sweet" dancing music.

He was 22 when his orchestra became one of the leading "name bands" in the country, Lauer said, then he entered the U. S. Army during World War II and the past few years, since his discharge, his re-formed band has proved as popular as ever.

# Earthquake Death Toll In Ecuador Soars Over 4,600

By JORGE MANTILLA

Quito, Ecuador, Aug. 8 (AP)—The unofficial death toll in earthquake-ravaged Ecuador soared above 4,600 today as damage estimates from some 29 mountain towns reached \$20,000,000. Countless thousands were reported hurt.

The Ecuadorian cabinet voted in emergency session last night to take immediate action on President Galo Plaza Lasso's plans to rebuild the stricken areas—most populous in Ecuador.

The defense ministry said 2,000 troops were on duty in the worst hit zones and order was being maintained.

Communications were being restored slowly as the Ecuadorian Air Force ferried doctors, nurses and medical aid to thousands of injured.

Three U. S. Caribbean Air Command planes from Balboa took six tons of relief supplies to Quito yesterday. They included blood plasma, serums and drugs.

The President, back from a tour of the ravaged areas, said some of the scenes of suffering rivaled even the "most Danteque" imagination. Four towns which virtually disappeared from the map were Guano, Patate, Pelileo and Pillaro.

Eyewitnesses returning from Ambato, largest city to receive the full force of the shocks, said the number of dead and injured undoubtedly had been underestimated. These witnesses said the ravaged area now is only a cemetery where the odor of death is almost unbearable.

They said the number of persons buried along the slopes of Tungurahua volcano never has been known. They reported that when the quakes struck masses of earth slid away from the mountainsides and the volcano erupted.

Frantic relatives who fought their way into the earthquake area in search of loved ones found mountains of debris instead of communities. The Patate river was blocked by a mountainside which created a lake at the foot of the old town of Patate.

# BULLETINS

Helena, Mont., Aug. 8 (AP)—Wind sent flames boiling up Willow mountain this morning as weary men strained desperately to trap the mammoth gates of the mountain's fire.

About 400 men worked throughout last night building fire lines to encircle the killer of 12 forest service parachutists and another fire fighter.

They hoped to complete the final three miles of fire line, bottling the wilderness area blaze on 7,500-foot Willow peak today. But westerly winds of 15 to 25 miles an hour drove rampaging flames rapidly to expand the east slope and vast expanses of dense timber beyond.

# COUNTY PILOT FORCED DOWN IN DELAWARE

When an airline pilot spotted the "wreckage" of an airplane Sunday near the Pennsylvania-Delaware line, a crash "scare" was set off that was not dispelled until later in the day when the grounded plane was identified as that of an Adams county veteran who had been forced down last Wednesday.

William Zepp, who was a Navy pilot in World War II and now is a pilot for Transatlantic Air Lines, made a forced landing last Wednesday, it developed, when his single-engine monoplane ran out of gas after rain squalls forced him off his course during a flight from Harrisburg to Linden, N. J.

Zepp, who is about 30 years of age, and is the son of Mrs. Ann Zepp, near York Springs, was reported uninjured after crashing his plane on a farm near Grubb's Corner, Del.

The unidentified airline pilot who sighted the "wreckage" of Zepp's plane, alerted officials at the International Airport, Philadelphia, and they notified Pennsylvania State police who combed Delaware county for evidence of the crash.

Later they telephoned Delaware State police at Penny Hill, Del., and were told the "crash" had occurred last Wednesday.

Zepp had not yet salvaged his craft from where it was forced down about a mile below the Pennsylvania line.

# SAYS ATTACKS ON CAMP PENN WERE 'UNFAIR'

Observations concerning the recent encampment of Pennsylvania boys at the Indian Gap Military Reservation were made by Prof. Charles L. Yost, principal of the Upper Adams Joint high school, as the guest teacher of the entire Bendersville Lutheran Sunday school on Sunday. Prof. Yost served as a counselor at the camp from August 9 to 29.

"This camp," said Prof. Yost, "developed from an idea conceived by Gov. Duff to give children throughout the state a chance to meet and get along together and to learn the ways of democracy. Last month children from all corners of the state, from city and country, white and negro, selected by school authorities of all counties came together, 2,500 strong, as guests of the state.

**Assails "Mud" Slinging**

"This became the first venture of its kind ever tried out in the United States. Never before had such a great number of boys from all over a state been assembled together to enjoy camp life as guests of the state. To guide and instruct the boys were outstanding men from our colleges and high schools, such men as Coach Higgins of Penn State and Coach Hamilton of Navy.

"When the boys arrived in camp they were issued the necessary camp equipment and at the end of the camp they were allowed to keep all of this camp clothing.

"In spite of the high intentions of those who sponsored this new venture, there were those who sought to throw 'mud' upon the treatment of these children." Prof. Yost termed as "unfair" and "misinformation" those statements claiming that the boys were given poor food and made to go on long hikes. He added that the counselors ate the same food and engaged in the same activities as did the boys and "without losing weight."

**"Most Inspiring"**

"Many boys," continued Prof. Yost, "admired a tree or a stream, saying 'it was the first time they had ever seen these natural beauties. Many said they were swimming for the first time. There was no room for race discrimination here. We learned first-hand that the negro and the white boy are very much alike with the same problems and feelings.

"It was gratifying to see the open expression of thankfulness shown by many of these boys. Most inspiring was the sight of boys kneeling beside their beds at bedtime to pray and give thanks to God.

In summing up the lesson Prof. Yost said, "We, who have the greatest blessing of health, freedom and opportunity, need to be rudely awakened to the realization of all those things for which we should be thankful."

# NEARLY 10,000 TOURISTS HERE OVER WEEK-END

The influx of tourists over the week-end was one of the largest of the 1949 season Saturday and Sunday, with an estimated 9,452 persons touring the battlefield and the National Military Park, according to figures obtained from Vernon S. Lunt, superintendent of the cemetery.

Traffic on all the main highways leading into and through Gettysburg was exceptionally heavy on Sunday, according to state police of the Gettysburg substation. Thousands of automobiles jammed the Lincoln highway in both directions from 8 o'clock Sunday morning until late at night.

# Many Picnic Parties

Traffic was also heavy on Route 15, north and south of Gettysburg, and on many other highways. Hundreds of motorists and picnic parties jammed Caledonia state park, The Narrows and other recreation spots.

On Saturday there were 127 guided tours over the battlefield, and three buses, and on Sunday the number of guided trips jumped to 159, with four buses.

It was estimated that 4,168 persons visited Gettysburg and the battlefield on Saturday, and 5,284 on Sunday. The automobiles followed each other in a constant stream over the field and through the National Cemetery. Mr. Lunt said there was almost a solid line of cars passing through the cemetery all day Sunday.

# Many States Represented

Parking spaces at such points as the Peace Light, Devil's Den and the Round Tops were filled with cars from early until late. The majority of them were Pennsylvanians, with cars from Ohio and Illinois ranking second in number. Almost every state in the union was represented, however, with cars from Georgia, North Carolina, Florida and Texas predominating from the South and Kansas and Iowa from the mid-west. The week-end also saw numerous California license plates, and some from New Mexico.

# NURSES SOUGHT FOR SERVICE IN POLIO DISTRICTS

Because there are more cases of infantile paralysis throughout the nation this year than during a comparable period in 1948, Mrs. Roy W. Gifford, chairman of nurse enrollment of the Adams county chapter, American Red Cross, today issued an appeal for registered nurses to serve in polio areas. Her appeal was made at the request of the National Foundation of Infantile Paralysis.

"Although there are no known cases of polio in this area, many regions in the country have reported that the disease is reaching almost epidemic proportions," Mrs. Gifford said.

This, coupled with the fact that there is already a shortage of registered nurses for regular duty, places a great strain on polio affected areas, she said.

# Seek R.C. Aid

Mrs. Gifford explained that hospitals in need of nurses for polio patients inform the national foundation. This organization then seeks the help of the Red Cross, which does the actual recruiting.

All nurses for polio become temporary employees of the hospital where they work, and receive the nationally uniform basis of salary, for nurses and supervisors, for a 40 to 48 hour week, according to general duty hours prevailing in the hospital to which they are assigned.

Mrs. Gifford said that the local Red Cross chapter will pay in advance, all travel expenses from the place of recruitment to the place of assignment. The chapter will be reimbursed by the national foundation which will also assist in providing maintenance, up to \$75 a month, for nurses living outside hospitals.

# RELEASED FOR HEARING

Harvey Miller, Gettysburg R. 4, arrested at 8:30 o'clock Saturday night by borough police on Chambersburg street on a disorderly conduct charge, is scheduled for a hearing before Justice of the Peace John H. Baschore this afternoon. He was committed to jail after his arrest, and released in \$50 cash bail Sunday.

# FACES CODE CHARGE

John A. Powell, Biglerville R. 2, driver of a truck which figured in a collision with a motor bike at South Washington and Breckenridge streets Friday, has been charged by borough police with failing to yield the right of way at an intersection. A ten-day notice will be sent by Justice of the Peace John H. Baschore.

**SEEK FACTS ON RAID 'TIP-OFFS'**

Norristown, Pa., Aug. 8 (AP)—Montgomery county authorities are on the prowl today for the "Paul Reverses" who spread the alarm to gambling houses that police raiders were coming.

Assistant District Attorney J. Stroud Weber said yesterday that he has ordered an investigation of reported "tip-offs" shortly before a swank gambling casino was raided Saturday at Bridgeport, Pa. One hundred and seventy-five persons were seized in the lavish establishment house in an outwardly modest row house.

Weber said the Bridgeport casino apparently was unaware of the police raid until the authorities entered the house. However, Weber said, he has been informed other gambling establishments were warned a raid or raids were impending.

The assistant district attorney said he had learned a place in Conshohocken, one near Ambler and several in Norristown closed down on the biggest "business day" of their week for fear the police raiders were headed their way. The "tip-offs" were made, Weber said, mostly by telephone.

Four men, alleged operators of the Bridgeport casino, were released in \$5,000 bail by Justice of the Peace Isaac L. Kehoe of Norristown. The raid was carried out by state policemen armed with a warrant issued by Kehoe.

Each of the other persons seized was assessed \$11 on a disorderly conduct charge after the crowd had been transported from Bridgeport to Norristown in buses.

Weber described the casino as one of the biggest gambling establishments in eastern Pennsylvania. Those released in bail were William Garber, 34, James Augustine, 41, and Louis Pascale, 52, all Norristown, and Frank Bettridge, Conshohocken.

# STANTON LEGION WINS; ALL-STAR PLAYERS LOSE

The Disabled Army Veterans from Harrisburg proved themselves not so disabled after all Saturday night under the lights at Recreation field, defeating a team of Gettysburg "All-Stars," 23 to 5.

The game was one of two played Saturday night to help raise money for the paying off of the lights recently installed at Recreation Park. In the other game, the Stanton Legion, which should get an award for the most vastly improved team in these parts, continued its winning ways by noosing out the Mechanicsburg Naval Supply Depot 11 to 10 in a slugfest that brought loud fans to their feet cheering during the last innings when the local squad won a game that up to the beginning of the last half of the sixth inning seemed completely lost.

# BROOKLYN AND CARDS TIED FOR NATIONAL LEAD

By JACK HAND  
(AP Sports Writer)  
Here they come down the stretch with St. Louis and Brooklyn neck and neck in the National league race and 52 games to go.

Brooklyn, which moved into a first-place tie by twice dumping Cincinnati while St. Louis was winning a single from New York, may have a slight edge in the schedule. The Brooks have 28 home games left while the Cards must play 28 on the road.

In the easy pickin' department, St. Louis has all the better of it. The Cards have 30 games with Pittsburgh, Cincinnati and Chicago, the last three teams in the standing, although the Pirates have been tough for them all year. Brooklyn plays a total of 16 with the sixth, seventh and eighth-place clubs.

**Six Games May Decide**  
The six big games between the Cards and Brooks may decide the issue but it's more likely that it will go down to the wire in late September.

Boston's role may be that of a "spiller" for the Brooks. Now 1½ games behind, the 1948 champs appear to have little chance of catching the leaders. But they do have 12 to play with Brooklyn. The Pirates, likewise, may be the stumbling block for the Cards who meet them 11 times before October 2.

Cincinnati, loser 14 of 18 starts against Brooklyn, was the stepping stone for Bart Shotton's men to regain a piece of first place. Joe Hatten shut out the Reds in the opener 7-0 and came on to work the last 1 2/3 innings of the 2-1 second game when Rex Barney went into trouble.

**Braves Finally Win**  
Homers by Bruce Edwards and Jackie Robinson in the first game and by Spider Jorgensen in the second drove in eight of the nine Dodgers runs. Edwards bashed his with the bases loaded in the sixth. George (Red) Mungler got the Cards back on the win path as he stopped New York with seven hits, 9-2. It was the fifth straight victory for the husky right-hander and his 11th of the year. Four Giant errors helped.

Boston broke a five-game losing streak by trampling Chicago, 11-0 on Bill Voiselle's seven-hitter but fell back into its tailspin in losing the second game in 10 innings, 4-3.

**Phillies Win Fair**  
Dick Sisler helped the Phillies to a double triumph over Pittsburgh with a three-run pinch homer in the ninth inning to take the second game, 5-4, after the Phils won the opener, 7-3.

The New York Yankees continued to fatten their American league lead at the expense of the St. Louis Browns although they had to be satisfied with a 2-2 tie in the second game. They smothered the cellar club, 20-2, in the opener. When darkness halted the finale at the end of 10 innings, the Yanks had only two hits off Al Papai.

The Yanks now lead by 5½ games. They are 6½ games out front of Boston whose seven-game winning streak was broken by Detroit, 6-4.

**A's Jolt Cleveland Twice**  
Cleveland's hopes took a double jolt from the A's with Elmer Valo and Mike Guerra dealing out the stiffest punches. Valo's three-run homer and fine relief pitching by Charley Harris saved Lou Brissie's 11th win, 5-4, in the first game. Guerra's two-run single enabled Joe Coleman to grab victory No. 10 from Al Benton in the second 4-2.

Art Houtteman celebrated his 22nd birthday by pitching Detroit to a 6-4 edge over the Red Sox, defeating Maurice McDermott, the sensational rookie southpaw. The Sox nicked Houtteman for 12 hits, including the 27th home runs by Ted Williams and Vern Stephens, but he was tough in the clutches. Dom DiMaggio bunted safely in the first inning, running his hitting streak to 34 consecutive games.

Chicago split a pair with Washington, the White Sox taking the opener, 4-1 on Randy Gumpert's eight-hit pitching, and the Senators breaking a seven-game losing string to cop the second, 1-0, behind Rookie Lloyd Hittle.

## Sport Shorts

Chicago, Aug. 8 (AP)—Slammin' Sammy Sneed, golf's top practitioner, has fallen into the squandering habit of gleefully tossing his ball to the gallery at the close of each round.

He did it yesterday in the second round of the \$20,000 All-American professional tourney at Tam O'Shanter, and it plunked an unwary spectator in the neck.

And the reason Sambo did it: He just had scooted home a terrific 70-foot chip shot on the 18th green. It landed a four-under-par 68 on the neck of Pace-setter Lloyd Mangrum and threw the Tam scramble into a dog-fight.

Goshen, N. Y., Aug. 8 (AP)—A bulky field of 18 starters, second largest in the history of the race, was indicated today for the 28th Hambletonian Stake Wednesday at Good Time Park.

The latest check through the barns at this home of harness racing's blue ribbon trotting event brought up the names of four additional horses not previously con-

## South Penn Baseball League

The North All-Stars defeated the South All-Stars, 7 to 2 Sunday afternoon at the Marsh Creek Heights field of the Greenmount baseball team.

The battle between the best from the northern teams of the South Penn baseball league and the best of the southern teams was held to raise funds for injured players and is an annual event of the South Penn loop. The three umpires donated their services for the game.

Chester Ogden, manager of the Bendersville team and Charles Snider, Granite representative, managed the northern division squad while Roy Shanbrook, of the Bonneauville team and George Kennel, Greenmount representative, were managers of the southern all-stars.

The games that would have been played Sunday, had the regular schedule

## Out Of The Past

From the Files of the  
Star and Sentinel and  
The Gettysburg Times  
ONE HUNDRED YEARS AGO

The Fast Day: Friday last was observed very generally by our citizens—every place of business being closed, and the churches open for public services.

Whig County Convention: In pursuance of the call of the Whig County committee, the delegates from the several boroughs and townships of Adams county, assembled at the court house in Gettysburg, on Monday the 6th inst., and organized by calling John Brough, Esq., to the chair, and appointing John C. Ellis, Esq., and William R. Sadler, secretaries.

At 1 o'clock the convention re-assembled and proceeded to ballot with the following results:

Director of the Poor — Jesse D. Newman.

Auditor—John Elder.

Commissioner — John Musselman, Jr.

Assembly—Daniel M. Smyser.

On motion the following persons were authorized to act as the Whig County committee during the ensuing year: A. R. Stevenson, William King, S. S. McCreary, D. Horner, B. F. Gardner, William D. Himes, George H. Binder.

Health of Gettysburg: We have been informed that, by some means or other, rumors of the prevalence of the cholera in this place have been put in circulation in neighboring towns. What could have given origin to the absurd story, we cannot imagine. Gettysburg is proverbial for the healthiness of its location, and its general exemption from epidemic disease; and at no time has our town been in healthier condition than at present—barring of course, occasional diseases of cholera morbus, always more or less prevalent in every section of the country at this particular season, but which have, in every case, yielded to the skill of our physicians. In 1832, when cholera was raging all around us, Gettysburg escaped entirely, and it is more than probable that we may escape again. Be this as it may, on the score of general health, we will put our goodly town against any town of similar size and population in the state.

SEVENTY-FIVE YEARS AGO

Appointed: Mr. Calvin T. Lower has been appointed postmaster at McKnightstown, in place of Rev. J. M. Mickley, resigned.

For some weeks our town has had an unusual run of tramps and vagrants, a few of them being drunk and disorderly, necessitating an occasional arrest and committed to jail.

The Springs Hotel Passenger Railway has been repaired, new rails being put in at the sharp curves, which will probably hereafter prevent annoyance from the cars running off the track.

On Wednesday night the colored folks of this place had their 4th annual ball in Agricultural Hall. We understand that it was a pleasant affair, the company being somewhat select, and the best of order being observed.

Major General Heintzelman, of the U. S. Army, is stopping at the McClellan House in this place. He was wounded at the battle of Bull Run, subsequently commanded the defenses of Washington, and is now, by reason of advanced age and physical infirmities, on the retired list.

On Friday night Dr. T. T. Tate, Lieutenant J. W. Cress, George Ziegler and Craig Geiselman, of this place, went to the Conewago, near Hershey's dam, on a fishing excursion, and returned with 85 good sized catfish, 16 eels and 8 large snappers.

Croquet, which had apparently been dying out in these parts as an outdoor game, has taken a new start this summer. Besides numerous private grounds, we observe ladies and gentlemen paying croquet on the grounds of the McClellan House, at all hours of the day. It furnishes an attractive and healthful outdoor exercise, which our American ladies specially need, and should be encouraged.

Married: Rowell—Seifert. On the 2nd inst., at the residence of G. W. Seifert, in Hamilton township, by A. C. Musselman, Esq., Mr. James Rockwell to Miss Rebecca Seifert, both of Adams county.

New Select School: On the 1st day of September next, Miss Grace Harper will re-open her Select School for young boys and girls, at the residence of her mother, in the diamond. Terms \$1 per month. Enquire at her residence as above.

Battle-Field Picnic: The rain on Saturday prevented the holding of the Pic-Nic at Round Top, and we are requested to state that it will come off next Saturday, (August 15th). The preparations are ample, and a large company and a pleasant time may be expected: A spacious dancing floor and good music, with refreshments on the ground are among the attractions. The public invited.

## Today's Talk

By GEORGE MATTHEW ADAMS

WHY NO POETS AS  
LEGISLATORS?

Among the most profound thinkers in this world have been the poets. In olden times they swayed nations. But why none in the halls of legislation? I can imagine their influence as being very great. Who can name the legislators contemporary with Homer, Dante, Milton? Yet these latter names are immortal.

I was reading recently in Shelley's "A Defense of Poetry" and he seems to have given vent to much that is sound reasoning and good common sense. He wrote that poets are "the mirrors of the gigantic shadows which futurity casts upon the present; the words which express what they understand not; the trumpets which sing to battle, and feel not what they inspire; the influence which moves not, but moves. Poets are the unacknowledged legislators of the world."

A great poet, as Senator, for example, would do worlds to stimulate peace and good will in the world, especially between misunderstanding nations. They know the human heart. They are deep lovers of nature, and they simplify life's essentials. Big educational institutions have engaged Robert Frost, our great American poet, just to mingle with the students and to give a high atmosphere to the everyday affairs of these institutions. The plan has proved an inspiring one. As a Senator, Robert Frost would give a tone to legislative matters, and he would place many a distinguished statesman on his toes.

We honor our really great poets too little. Mr. Frost, however, seems to be an exception. In their lifetimes both Whitman and Vachel Lindsay were tragically overlooked and unappreciated. But how great they loom today. What legislator might well envy their fame!

The poet is appreciative of the dignity of human life and its beauty. He clarifies the fundamentals. The universe is his country. All mankind is his theme. Petty things have no lure for him. Consider the fame of but one Kipling in comparison with a score or more of forgotten statesmen. What a bearer of truth, of hope, and faith one great poet would be among those at the helm of state at such a time as now. Why no poets as legislators?

Tomorrow Mr. Adams will talk on the subject: "Be A Self-Director!"

### RELIEF

The Lord takes pity now and then!  
For when the earth begins to bake  
He sends to weary, fretful men  
A breeze of comfort from the lake.  
The caps upon the waves turn white  
As any plume that crowned a knight.

For days the grain has scarcely stirred  
And not a cloud has crossed the sky.  
Deep in the shade has stood the herd,  
Unmindful of the passers-by.  
And then, the leaves upon the trees  
Signal the coming of a breeze.

The cattle start to graze once more;  
Men walk the road at quicker pace;  
At every open dwelling door  
There can be a smiling face.  
The breeze is coming from the lake  
The fever of the land to break.

## Troopers Receive "Phony" Summonses

Williamsport, Pa., Aug. 8 (AP) — Capt. Norman C. Annich of the state police said two clerks in his office have received "phony" summonses for traffic violations in Philadelphia. Annich said both men, whose names he refused to disclose, were at work in his office on the day the traffic violations allegedly were committed in Philadelphia.

Both papers bore the rubber stamp signatures of Magistrate Jacob Dogole and Herman Kohn, Jr., prosecutor, the state trooper said.

Annich said he has written Magistrate Dogole that the summonses are illegal since neither of the men was in Philadelphia at the time. Previous reports that Williamsport residents received notices of traffic violations in Philadelphia on days they were not in that city brought portents to the Quaker City.

Littlestown, will open its annual carnival tonight on the playground with concessions and games. Programs of entertainment will begin Wednesday. Firemen erected stands and made ready for the event Saturday.

## Interstate League

(By The Associated Press)  
The Lancaster Red Roses are proving themselves a team to watch in the Interstate league pennant battle. The Roses swept their twin bill with York yesterday, 16-6 and 4-2, to take over third place and move only six games behind the pace setting Allentown Cardinals. The Roses now have won their last four series and the Sunday twin killing marked their 10th and 11th victories in their last 14 starts.

Allentown was hard pressed to take an 11-10 decision over Hagerstown. Bob Hoch's ninth inning double scored Frankie Sturm from first

base with the deciding tally. The second place Wilmington Blue Rocks lost ground by dividing with the seventh place Sunbury Reds. The Rocks, now two and a half games behind Allentown, won the six-inning nightcap 7-4 after Sunbury trounced them 20-6 in the opener.

The Harrisburg Senators dropped back to fourth place by splitting with the Trenton Giants. Harrisburg won the first game 9-4 and Trenton the afterpiece 7-5. The second game, scheduled for seven innings, ran an extra frame after

**of a BRAND-NEW IDEA**

HERE is a hint of something wonderful that's coming your way.

It is more than just the front end of the new Buick SPECIAL. It's a fresh new front end treatment—a "Buick first"—and it makes so much sense that it's safe to say it will start a new trend in styling.

Look it over and you'll see what we mean.

Sturdy vertical bars, attached to the bumper, form the grille—and at the same time serve as bumper-guards, which makes it impossible for you to "lock horns" with the car ahead of you.

The bumper no longer projects beyond the grille—so inches are saved in the over-all length of the car.

Parking lights are deeply recessed. The grille is made up of bars heavy enough to absorb all normal impact—and they're individually replaceable to cut repair costs in the unlikely event of damage.

Bumper, grille, bumper-guards and parking lights all become part of a single, unified design.

But—stunning as this brilliant bit of designing is—it's just a hint of all the new things you'll see when the new SPECIAL goes on display.

Even the price is good news. So watch for the full announcement—coming very soon—and you'll agree that more than ever, Buick's the one for you.

## Don't Harvest Fresh Peas Until Ready To Eat Them

These garden-fresh peas are losing flavor every minute. Hurry up and cook them!

What is a fresh vegetable? In the market the term means a vegetable which has not been canned or frozen, though it may travel several days after being harvested before reaching the home.

To home gardeners, on the other hand, a fresh vegetable is one just picked from the garden. How long it will stay fresh is a subject of debate. As soon as a vegetable is picked it begins to lose something, vitamins, flavor, tenderness, something you like, that's good for you.

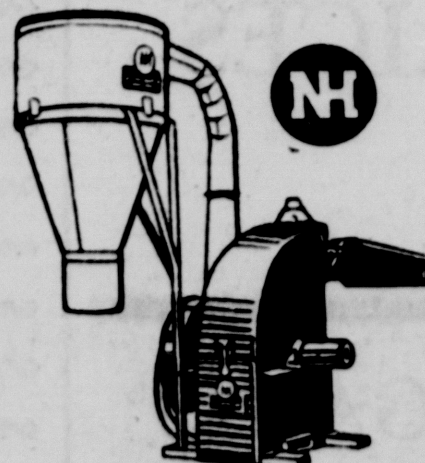

Loss of flavor is most noticeable, and reaches its extreme in sweet corn and garden peas, which only home gardeners can enjoy at their best. Some say that no more than half an hour should elapse between harvesting and serving on the table. Loss of vitamins and tenderness may not be so rapid, but it is important for the health of the family that eats the vegetables.

Only truly garden-fresh vegetables should be frozen or canned; and commercial operations are usually planned so that a minimum time elapses between the harvest and the processing.

Similar planning should be done by home gardeners in harvesting their crops. If vegetables must be kept for more than an hour after harvesting, the refrigerator is the place to keep them. But the garden is a better place to keep vegetables fresh than the refrigerator. The economy of a garden is seldom considered from this viewpoint but it is an important one.

### RYE FOR COVER AND GREEN MANURE

Rye is firmly established as one of the better non-leguminous cereal crops to grow as a winter cover, fall and early spring pasturage and green manure. Below we list a few of its principal merits in these roles, several of which should interest the small vegetable gardener as well as the general farmer:

1. Rye is easy and economical to grow, thriving on fairly poor as well as fertile soils.

2. It is rarely injured by winter weather, especially where it is seeded on well drained land.

ed on well drained land.

3. It can be pastured in late fall, at random over winter, and for a week to two weeks in the spring before it is turned under.

4. Rye is somewhat tolerant of acid soils and produces a good volume of top growth without lime where soils are below the neutral level.

5. Its stolon habit of growth make it an excellent crop to save sloping exposed soils from surface erosion over winter.

6. When grown for green manure, rye produces a heavy mass of soft vegetation which decays rapidly after it is turned under. In this role it is an ideal crop for the vegetable gardener and truck crop farmer who cannot afford to devote one entire summer to soil improvement.

Prospective growers of small fruits—blackberries, dewberries, raspberries, blueberries, boysenberries, currants, gooseberries, strawberries, and even small tree and vine fruits—may wisely employ rye to provide the added organic matter most soils need to deepen them and render them more mellow for these permanent purposes. If sown at once, rye makes a fairly heavy growth that can be turned under for soil improvement in late fall. However, to gain the benefits of its cover merits

by a thin layer of concrete as finishing surface. The hot water in the pipes is furnished by one heating plant providing a uniform degree of heat over the whole area. It keeps the litter dry and warm, and the chicks comfortable from below rather than from above as with "mother hen improved" methods such as electric hovers for example do. One could place hovers over parts of such an arrangement.

Another type of radiant floor heating can be constructed with electric insulated wires embedded in a concrete floor, and this type is cheaper to install than hot water heating plants, however the kilowatt hours for this system are many, and it needs more experiments before one can judge the practicability of this type of brooding.

Radiant floor heating brings advantages such as no crowding, so that the chicks distribute themselves over all available space. Dry litter will reduce coccidiosis and other moist favoring sicknesses. The main advantage for a large operator is the saving of time, and if water and feed facilities are arranged smartly... no human foot has to step often into the chick's world. Combining the heat plant with one's own home heat outfit ought to increase not only the chick's, but also the man's comfort.

If earlier crops have been heavily fertilized, rye may need no additional fertilizer. However, for green manure and cover purposes rye usually responds advantageously to some additional nitrogen worked into the soil carefully at least a few days before seeding time.

As already stressed, rye should be seeded early in August for maximum results as a green manure and cover crop. But even if circumstances render it imperative, seeding may be

**McCormick-Deering Milker**

America's 310,000 milking machine owners last year reported savings in time of 2½ hours a day—more than enough to plow, plant, cultivate and pick mechanically 100 acres of corn. —Bureau of Agricultural Economics, U.S. D.A.

The saving in time reported above is one of the key reasons why America's milk production is holding its own so well in spite of farm help shortages.

If you are the fortunate owner of a McCormick-Deering Milker, we urge

you to take the best possible care of it. When new parts are needed, insist on getting Genuine IH Parts. Make our store your IH Parts headquarters. If you need a new milker, ask us about the availability of new machines.

## EASY CREDIT SET BY BOARD

Washington, Aug. 8 (AP)—The government, which this week began borrowing to meet its expenses, may be the chief gainer from the newest "easy credit" move by the Federal Reserve board.

The board has ordered a cut in reserve requirements—so the proportion of deposits that banks may not lend—in order to make an extra \$1,800,000,000 available for loan or investment this month.

It was the third time this year

the board has thus increased the supply of loan funds available, besides taking such other business-bracing steps as removal of consumer credit restrictions, and making it easier to buy stocks on credit.

Neither of the previous cuts in bank reserve requirements, the latest of them in early May, made even a dent in the record-making, \$2,750,000,000, 27-week-long drop in bank loans to business. That drop lasted until this past week.

As businessmen shied away from borrowing money for the purchase of goods they might get stuck with in a price decline, they sought other ways to invest their money. One result was heavy purchases of gov-

## CHINESE STUDY 'WHITE PAPER'

Canton, Aug. 8 (AP)—The Chinese Foreign Office have begun an intensive study of the U. S. White Paper which writes off the Nationalist government as a failure in the war with China's Communists.

A spokesman said that because of the 1,054-page length of the white paper, China's official reaction could not be expected for several days.

Even as he spoke, events in the field served to underline one point in the white paper—that the Nationalist armies "did not have to be beaten; they disintegrated."

Canton, in some ways in fact, was more preoccupied with the defections on the front to the north than it was with the white paper.

The whole defense system for south China was thrown out of gear when Gen. Chen Ming-Jen, deputy commander on that front, went over to the reds with possibly 30,000 of his 90,000 troops. That handed over to the Reds the fortress of Changsha, 365 miles north of Canton.

Official dispatches said that more than 150,000 Red troops were massing south of Changsha. They predicted a big battle soon.
